<p><b>Amendment / RCE following the advisory action dated November 18<sup>th</sup>, 2011 ssubmitted in the two-months delay in order to provide for the advisory action</b></p>

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir,

We would like to thank you for the examination of our application.

We understand from the advisory action that our responses and amendments could not be entered in response to the Final action.

5 Our amendments filed on 14-NOV-2011 after final should not be entered.

Hence, we request a continuing examination based upon the current file and the enclosed submitted amendments, and appendixes, including the declarations according to 37 CFR 1.132.

10 We have made an error without intent to deceive in our answer filed 2011-04-17 concerning the setup which was said to have been done 1600 meters apart. While I had

been performing with Dr. VAN GENT the first Indium-Indium Fe-55 stimulation setup 12 meters apart on December 5<sup>th</sup>, 2003, I did not attend the second Indium-Indium Fe-55 stimulation setup on May 20<sup>th</sup>, 2004, which I reported erroneously at 1600 meters apart: after a careful review with Dr. VAN GENT, it appears that the second Indium-Indium Fe-55 stimulation setup was a replication of the first setup at 12 meters. The third Indium-Indium Fe-55 stimulation setup at 1600 meters apart on May 27<sup>th</sup>, 2004 is another setup which was carried out by Dr VAN GENT and which is presented below.

Taking into account section 3 of the action : *"Furthermore, but as a more procedural point, any such "Declaration" should be clearly identified to have been submitted under 37 C.F.R. 1.132."*, we would like to make sure that any decision be made on the correct measurement data, hence, we are re-submitting the previous data corrected, and additional data in the form of declarations according to 37 C.F.R. 1.132.

We apologize for the inconvenience.
